## **PART I MIXED PLASTICS RECYCLING—CHARACTERIZATION, COLLECTION, COSTS, MARKETS**

<b>SUMMARY</b> .....	3
<b>1. INTRODUCTION</b> .....	7
1.1 National Production and Recycling Levels of Plastics .....	11
1.2 Plastics in Municipal Solid Waste .....	15
1.3 Mixed Plastics in Post-Consumer Recycling .....	17
<b>2. CHARACTERIZATION, GENERATION AND COLLECTION     OF PLASTICS</b> .....	19
2.1 Field Assessment of Plastic Types in Municipal Solid Waste .....	19
2.2 Mixed Plastics in Recycling Programs .....	23
New Jersey .....	23
Hennepin County, Minnesota .....	26
Walnut Creek, California .....	29
Akron, Ohio .....	29
Ontario, Canada .....	30
Seattle, Washington .....	30
PS Collection Data .....	30
2.3 Per Capita Generation .....	31
2.4 Commercial and Food Sector Sources of Waste Plastic .....	39
2.5 Post-Consumer Plastic Weights .....	42
2.6 Summary .....	42

<b>3. PLASTICS RECYCLING PROGRAMS</b> .....	44
<b>3.1 Curbside Collection of Plastics in Illinois</b> .....	44
<b>3.2 Film/Rigid Plastics Recycling</b> .....	44
<b>4. RECYCLING COSTS</b> .....	51
<b>4.1 Recycling Program Variables</b> .....	51
<b>4.2 Recycling Costs</b> .....	52
Madison, Wisconsin Recycling Cost Estimate .....	52
Minneapolis, Minnesota Plastic Recycling Cost Estimate .....	55
Other Recycling Cost Estimates .....	58
<b>4.3 Collection Times</b> .....	58
<b>4.4 Recycling Truck Costs and Truck Collection Methods         for Plastics</b> .....	61
<b>4.5 Process Cost</b> .....	62
<b>4.6 Cost Estimate Computer Programs</b> .....	63
Eastman Chemical .....	63
Wasteplan .....	65
Least-Cost Scheduling .....	65
<b>5. MARKETS AND PACKAGING CHANGES FOR     RECYCLED PLASTICS</b> .....	70
<b>5.1 Recycled Resin Demand</b> .....	70
<b>5.2 Packaging Changes to Increase Recycle Rates</b> .....	72
<b>5.3 Markets in Primary Recycling</b> .....	74
<b>5.4 Markets in Secondary Recycling</b> .....	75
<b>APPENDIX A: RECYCLING VEHICLE EQUIPMENT MANUFACTURERS</b> .....	78
<b>APPENDIX B: GLOSSARY</b> .....	80
<b>REFERENCES</b> .....	83

**PART II  
RECYCLING TECHNOLOGY**

<b>SUMMARY</b> .....	89
<b>1. INTRODUCTION</b> .....	94
<b>1.1 Plastics in Municipal Solid Waste</b> .....	94
<b>1.2 Plastic Resin Production and Product Manufacture</b> .....	96
Resin Manufacture .....	96
Additives .....	100

Product Manufacture .....	100
Extrusion Molding .....	102
Blow Molding .....	103
Injection Molding .....	106
Film Manufacture .....	107
Melt Flow Indexes .....	107
 <b>2. MANUFACTURE OF PLASTIC LUMBER USING MIXED PLASTICS</b> .....	 110
2.1 Plastic Wood Producers .....	111
2.2 Plastic Wood Production .....	111
2.3 General Guidelines for Plastic Lumber Manufacturing .....	115
2.4 Products from Mixed Plastic Lumber .....	116
2.5 Enhancement of Plastic Wood Properties .....	116
2.6 Wood Fiber-Resin Composite Lumber .....	119
2.7 Future of Mixed Plastic Lumber .....	119
 <b>3. EMERGING METHODS FOR PROCESSING AND SEPARATION OF PLASTICS</b> .....	 120
3.1 Optical Color Sorting of Glass and PET Containers .....	120
3.2 Separation of PVC Bottles from Other Plastic Containers ...	126
3.3 Separation of HDPE Base Cups from PET Beverage Bottles .....	130
3.4 Separation Using Selective Dissolution .....	134
3.5 Separation Using Soluble Acrylic Polymers .....	141
3.6 Initial Activities in Polyurethane Recycling .....	142
3.7 Initial Activities in Automotive Plastics Recycling .....	142
Identification of Plastic Auto Parts .....	142
Solvent Dissolution of Plastic Auto Shredder Residue ...	143
Pyrolyzing of Auto Thermosets .....	144
3.8 Sources of Plastic Recycling Information and Plastic Recycling Systems .....	144
 <b>4. BUYERS AND SPECIFICATIONS FOR WASTE PLASTICS</b> ....	 145
4.1 Buyers of Waste Plastic .....	145
4.2 Specifications for Waste Plastic .....	147
 <b>APPENDIX A: PLASTIC SCRAP HANDLERS AND BROKERS</b> .....	 151
 <b>APPENDIX B: SOURCES OF INFORMATION ON PLASTICS RECYCLING</b> .....	 185

**APPENDIX C: MANUFACTURERS OF PLASTIC RECYCLING  
EQUIPMENT** ..... 191

**APPENDIX D: GLOSSARY** ..... 200

**REFERENCES** ..... 205
